

# CONTENTS

Introduction.....	7
1. The concept of digital models of objects.....	9
2. Theoretical fundamentals of terrestrial laser scanning (TLS).....	13
3. Terrestrial scanning systems.....	19
4. Sources of TLS errors.....	28
5. Calibration of TLS.....	33
6. Accuracy of TLS.....	37
7. Scan connecting and absolute orientation of a model.....	44
8. Technologic issues of TLS.....	48
9. Software for processing TLS data.....	49
10. Mobile terrestrial laser scanning.....	58
11. Application of TLS.....	67
11.1. Architecture.....	67
11.2. Engineering.....	70
11.3. Cultural Heritage.....	72
11.4. Others.....	75
Conclusions.....	76
References.....	77
Appendices.....	81
1. Syllabus.....	81
2. Control questions and answers.....	91
