

CONTENTS

1.	Advanced polymer composites for flexible electrochemical energy storage	9
	V. Khomenko, D. Patlun, B. Savchenko, N. Sova	
2.	An experimental study on the properties of recycled polypropylene highly filled with the sand as a modern composite material	15
	L. Garbacz	
3.	Composites based on thermoplastic starch filled with cellulose waste from the food industry	20
	R. Moskal, O. Ishchenko, V. Plavan, I. Liashok, M. Ivaskiv	
4.	Current trends in the production of polymer film materials for dental purposes	24
	V. Shvets, V. Plavan, O. Ishchenko, I. Liashok, M. Koliada	
5.	Development of a method of acid-polymeric surface modification of clay minerals for wastewater treatment	29
	N. Tarasenko, Y. Budash, V. Plavan, M. Koliada, R. Petrunko	
6.	Development of active films based on modified starches	34
	D. Kuchynska, O. Ishchenko, I. Lyashok	
7.	Development of epoxy composites resistant to impact loads	37
	O. Sapronov, A. Buketov, L. Sapronova, P. Vorobiov	
8.	Development of equipment for the production of hydrogel films by centrifugal molding	42
	O. Grytsenko, N. Baran, P. Voloshkevych, O. Strogan	
9.	Electrospinning possibilities for natural proteins with bioactive additives	49
	A. Andziukevičiūtė Jankūnienė, U. Zasčiurinskaitė, A. Balčiūnaitienė, J. Viškėlis, E. Adomavičiūtė, C. Gaidau, M. Rapa, V. Valeika, V. Jankauskaitė	
10.	Evaluation of the graphite uniformity distribution in PVC matrix	54
	D. Novak, N. Bereznenko, V. Vasylenko, K. Chistylin	
11.	Features in obtaining hydrogel dressings for medical purposes	59
	O. Grytsenko, N. Baran, O. Kushta, M. Panas	
12.	Features of the protective effect of modified titanium dioxide in coatings based on epoxy compositions	67
	T. Humenetskyi, N. Chopyk, K. Bratash	
13.	Filtration drying of food industry waste	71
	O. Ivashchuk, V. Atamanyuk, R. Chyzhovych, Z. Hnativ, S. Kiiiaieva	
14.	Hybrid hydrogels based on water-soluble polymers with the addition of clay of the montmorillonite type	72
	I. Liashok, O. Ishchenko, A. Godunko, D. Kuchynska	

15. **Hydrogel copolymers of methacrylic esters for controlled drug release systems** 76
V. Skorokhoda, N. Semenyuk, G. Dudok, Y. Melnyk
16. **Hyaluronic acid: a natural biopolymer of biomedical and industrial applications** 81
I. Okhrimenko, O. Ishchenko, I. Liashok, Yu. Smychek
17. **Increasing anti-corrosion properties of polyurethane coatings through the functional filling** 84
T. Humenetskyi, L. Bilyi, N. Chopyk
18. **Improving the properties of polyurethane compositions by inorganic and organic additives** 88
A. Kolodiy, V. Plavan, Y. Budash, S. Titarenko
19. **Innovative technologies for lighting wine materials using organic polymers** 92
D. Kichura, T. Chaikivskyi
20. **Investigation of the resistance of fibrous materials based on acrylonitrile copolymers to thermal destruction** 94
O. Haranina, Y. Redko, Y. Romaniuk, A. Vardanyan
21. **Metod of strengthening of film hydrogel membranes based on 2-hydroxyetylmethacrylate copolymers and polyvinylpyrrolidone** 96
N. Baran, O. Grytsenko, V. Moravskyi
22. **New acrylate polymers – basis of paints for drawing on water via using EBRU technology** 101
V. Distanov, V. Bondarev, L. Myronenko
23. **New method of plastics waste management** 106
F. Longwic
24. **New technology of tubular products based on composite hydrogels production** 110
B. Berezhnyy, O. Grytsenko, M. Kushnirchuk, Ľ. Dulebová
25. **Nonwoven filtering materials from degradable and filled polymers** 117
Y. Bulhakov, B. Savchenko, O. Slieptsov, N. Sova
26. **Obtaining highly filled metal containing polymer composites** 120
A. Kucherenko, Ľ. Dulebova, V. Moravskyi
27. **Optimization of the synthesis and technological aspects fabrication of PVP-graft-PHEMA hydrogel membranes** 126
Y. Melnyk, V. Skorokhoda
28. **Physico-chemical features of obtaining modified polyester composites** 132
B. Kulish, D. Katruk, V. Levytskyi, A. Masyuk
29. **Polyhydroxybutyrate: features of biosynthesis, identification and properties** 139
I. Semeniuk, Y. Melnyk, Y. Stetsyshyn, N. Semenyuk,
V. Skorokhoda, O. Karpenko

30.	Poly lactide composites with calcium-containing fillers	144
	D. Kechur, B. Kulish, V. Levvytskyi, A. Masyuk	
31.	Poly lactide starch-containing composites: preparation and properties	150
	A. Masyuk, D. Kechur, B. Kulish, V. Levvytskyi	
32.	Polymeric foams in extrusion additive manufacturing	156
	O. Sliptsov, B. Savchenko, S. Osaulenko, T. Stefaniv	
33.	Polymer-mineral compositions for leather finishing	160
	A. Bondaryeva, O. Mokrousova, O. Okhmat, I. Kopytina	
34.	Preparation of polyurethane composites and their antibacterial and photo-responsive self-healing performances	162
	L. Cao, W. Wang	
35.	Protective materials based on hydrocarbon oligomers	164
	D. Kichura, R. Subtelnyi	
36.	Recycling options for packaging wastes of traditional and degradable polymeric materials	166
	B. Savchuk, L. Rozvora, B. Savchenko, N. Sova	
37.	Regulations of obtaining silver nanoparticles applying the polyvinylpyrrolidone as a reducer and stabilizer	170
	V. Skorokhoda, G. Dudok, N. Semenyuk	
38.	Rheological parameters of polymer fire-retardant coatings with R120-R150 fire resistance rate	175
	R. Vakhitov, V. Drizhd, L. Vakhitova, V. Bessarabov, V. Strashnyi	
39.	Robotic large scale additive manufacturing with FGF technology	177
	P. Štefčák, I. Gajdoš, E. Spišák	
40.	Simulation of distributive and dispersive mixing in extruder with rotational barrel segment	186
	I. Gajdoš, S. Ján, P. Štefčák	
41.	Structuring of polymer films by UV irradiation in the presence of modified epoxy resin	190
	N. Chopyk, M. Bratychak, V. Zemke	
42.	Study of the filler content dependence on the adhesive strength for hydroxymethacrylate with polyvinylpyrrolidone compositions	194
	M. Bratychak, V. Zemke, N. Chopyk	
43.	Synthesis of a new supramolecular polymeric system based on β-cyclodextrin and bisphenol S	198
	I. Quaratesi, R. Gliubizzi, P. Neri, C. Gaeta, E. Badea	
44.	Technologies for the obtaining highly soluble polymer composite materials with active pharmaceutical ingredients	205
	V. Bessarabov, V. Lisovyi, V. Lyzhniuk, V. Kostyuk, G. Kuzmina, A. Goy, S. Hureieva, O. Ishchenko, V. Yaremenko	
45.	The influence of the nature of the polymer binder on electrical conductivity of polymer composites	207
	K. Marchukova, O. Butenko, V. Khomenko, V. Barsukov, V. Tverdokhlib, O. Chernysh	

46.	The potential of solid dispersion systems for increasing the solubility of an anti-inflammatory active pharmaceutical ingredient	213
	V. Lyzhniuk, V. Lisovyi, V. Bessarabov, G. Kuzmina, V. Kostiuk, K. Savchenko, A. Kharchenko	
47.	The role of polyvinylpyrrolidone in the formation of nanocomposites based on a compatible polycaproamide and polypropylene	215
	V. Krasinskyi	
48.	Thermostable polymer composites for tribological purpose	219
	O. Kabat, V. Sytar, J. Zicans, R. M. Meri	
49.	Water repellent surfaces stability	224
	O. Myronyuk, D. Baklan	
50.	Water-soluble collagen extraction from leather waste	226
	L. Maistrenko, O. Okhmat, O. Iungin	
	THE AUTHORS INDEX	229
